

Congregational Report Worksheet

This worksheet is for those who prefer to work on paper before filling out the online report, and those who choose not to use the online system.

Introduction

Please realize that for the purposes of this report, the working definition of a 'Congregation' is more broad than that of an established parish. A Congregation is "a unique worshiping community where the Word is preached and the sacraments are celebrated." In the past, some congregations have not reported when they could have because they assumed that they needed to be fully independent. If you are not sure whether or not your worshiping community is a 'congregation' you can find more information here: www.acna.org/help

There are 5 sections to the Congregational Report: Contact, Membership, Worship, Stewardship, and Ministry. You can use this document as a worksheet and then fill in the results for your congregation online, or you can send the completed report to the provincial office by mail or fax.

Note: A congregation is defined as a unique worshipping community where the scriptures are taught and the sacraments are celebrated. A parish may consist of more than one congregation. If a congregation begins a service designed for a specific age demographic or ethnic group this is a new congregation. For example, if a primarily Caucasian congregation supports a new service for Spanish speakers this is a new congregation. If a congregation begins a weekly service at an assisted living facility this is a congregation. If a congregation adds a spoken Rite I service prior to it's contemporary Rite II service this is NOT a new congregation.
